Subject: Kyodo Yushi TMO 150 – 20 liter can types

To whom it may concern:

We hereby confirm Kyodo Yushi lubricating oil TMO 150 has been supplied during 2025 in 3 different 20 liter cans. Until recently we have been using 2 different types of 20 liter can due to supply shortages.

As from week 30, 2025 we have started supply in a new can type. This will be our default can as this can is produced in The Netherlands, close to our TMO 150 production location. Steady supply of this type of 20 liter can is guaranteed.

Original 20L can  
(in 2025 we  
experienced many  
shortages in supply)

New 20 liter can as  
from week 30 -  
2025  
Default can.

Interim type 20  
liter can, used to  
overcome supply  
shortages in  
Q2-2025

We confirm this statement is valid and correct.

Kyodo Yushi Europe B.V.
